Letters of Transmittal

The Honourable Fred W. Johnson,
Lieutenant Governor,
Province of Saskatchewan

Sir:

I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1985.

Respectfully submitted,

Louis A. Domotor

Louis A. Domotor,
Minister of Rural Development.

Honourable Louis A. Domotor
Minister of Rural Development

The Honourable Louis A. Domotor,
Minister of Rural Development,
Regina, Saskatchewan

Sir:

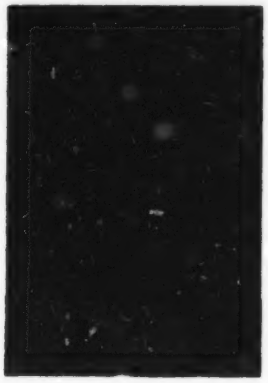
I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1985.

The past year was one of great accomplishment, as the Task Force on Rural Development prepared its recommendations on a strategy for the development of rural Saskatchewan. We look forward to building on those recommendations as a framework for a strong and vital rural sector.

Respectfully submitted,

D. V. Gilewich

D. V. Gilewich,
Deputy Minister of Rural Development.



D. V. Gilewich,
Deputy Minister of Rural Development

Mission and Objectives

Mission:

The Department of Rural Development's mission is to research, develop and administer programs and policies which enhance the socio-economic well-being of rural residents in a manner which achieves maximum benefit from the resources and mandate prescribed by the Government of Saskatchewan.

Objectives:

- To co-ordinate the provincial government's efforts in rural development.
- To maintain and enhance the rural way of life.
- To promote economic and social development in rural areas.
- To foster local initiative and control in matters affecting rural residents.
- To enhance the role and autonomy of municipal governments.
- To improve the range and quality of services available to rural people.

Programs:

Designated Road Program

- To provide financial and technical assistance
- To ensure roadway standards
- To ensure traffic safety standards

Community Planning

- To assist rural municipalities with their community planning and resource management endeavours
- To encourage appropriate municipal land use and resource management practices within rural Saskatchewan
- To administer "The Planning and Development Act" through the process of reviewing development plans, zoning bylaws and subdivision proposals pertaining to Rural Municipalities
- To administer the Abandoned Railway Right-of-Way Land Use Program
- To represent Rural Development in the Environment Impact Assessment review process
- To review rural-urban annexation proposals from a Rural Development perspective

Municipal Management and Finance

- To provide an advisory and consultative service
- To draft proposed legislative amendments
- To provide statistical reports
- To review financial statements, budgets and accounting procedures

Revenue Sharing

- To provide funding through annual grants to rural municipalities to ensure fiscal viability

Planning and Research

- To provide road planning services
- To provide input for program and policy development to best serve the interests of rural municipalities
- To determine the unconditional revenue sharing funds to rural municipalities and organized hamlets
- To conduct departmental research on policies and programs affecting rural municipalities and rural residents
- To administer the traffic safety program that provides financial and technical assistance to rural municipalities

Bridge Program

- To provide financial and technical assistance for the construction and maintenance of bridge facilities
- To maintain an inventory of bridges and the condition of bridges in Rural Municipalities

Ferry Program

- To operate 15 ferry crossings as part of traffic management and transportation access in the municipalities

Municipal Employees' Superannuation

- To administer a program which provides long term income security for participating employees and their dependents

Municipal Grants

Rural Revenue Sharing

Under the province's revenue sharing program, Saskatchewan Rural Development distributes annual grants to R.M.'s. In 1984-85 rural municipalities shared over $47 million for specific projects and locally determined programs.

Unconditional Grants

Grants totalling $16,727,290 were paid to rural municipalities on an unconditional basis according to the established formula.

Conditional Grants

Conditional grants for rural municipalities were paid out during the year under review for the following purposes:

Primary Grid	$ 8,990,800
Main Farm Access Roads	11,689,790
Bridges	3,357,500
Maintenance	3,645,520
Industrial Access Roads	410,340
Resort Roads	193,970
Traffic Safety	62,280
Traffic Counts	151,050
Regional Park Roads	290,410
Indian Access Roads	59,600
Timber Roads	58,280
Fire	212,320
Recreation	183,510
Legal Surveys	1,100,780
Total	**$30,406,130**

Inter-Municipal Programs

Municipalities which agree to offer common recreation and fire protection services to their residents are eligible for inter-municipal revenue sharing grants.

Two or more neighbouring municipalities may qualify through a formal agreement, and in some cases an association is necessary to administer the services. It is up to an individual municipality to initiate the agreement and to work out the terms and conditions.

Assistance for Construction of Roads in Indian Reserves

This program provides for the construction of designated roads on Indian Reserves. Under agreement with the Federal Government the Province recovers 80% of construction costs. Grants in the amount of $76,700 were paid during 1984-85.

Municipal Associations

A grant of $5,000 was paid to the Saskatchewan Association of Rural Municipalities and a grant of $1,000 was paid to the Rural Municipal Administrators' Association in support of their operations.

Drafting Services

The Drafting Services Branch of the Department of Rural Development provides cartography, graphics, drafting and technical services to all branches and districts of the Department; with map sales and services to outside agencies and the general public.

During the past year, this branch prepared a composite map of York Lake Regional Park recognizing the land uses around the lake and resort area. Also, 299 rural municipalities project maps were updated showing 1035 km of new construction and 75 rural inventory maps were revised from field notes, now completing the province to visual identity standards. The ever popular 1984 Saskatchewan Grid Road Map was revised and 128,000 copies were distributed free.

Department displays on programs and traffic safety were revitalized and revised for the Farm Progress Show in Regina and Mexabition in Saskatoon.

Board of Examiners

The Board of Examiners (Rural), appointed under the provisions of The Department of Rural Development Act, is responsible for the issuance of certificates of qualification to administrators of rural municipalities. The Board consists of one staff member of the Department who serves as chairman, one representative from the Saskatchewan Association of Rural Municipalities and one representative from the Rural Municipal Administrators' Association.

Type of Certificate	Number Issued — 1984-85
Rural Class "C"	25
Rural Class "A"	15
Rural "Superior A"	0

Municipal Employees' Superannuation Plan

Composition of Commission

The Commission administrating the provisions of The Municipal Employees' Superannuation Act is comprised of nine members:

- Chairman — Appointed by the Lieutenant Governor in Council
- Member representing Urban Employees — Appointed by the Minister of Rural Development
- Representative of Policemen and Firefighters — Appointed by the Minister of Rural Development
- Six other members named by their respective associations namely:
  - The Saskatchewan Urban Municipalities Association
  - The Saskatchewan School Trustees' Association
  - The Saskatchewan Association of Rural Municipalities
  - The Rural Municipal Administrators' Association
  - The Association of School Business Officials
  - The Association of Community Colleges

Participants in Plan

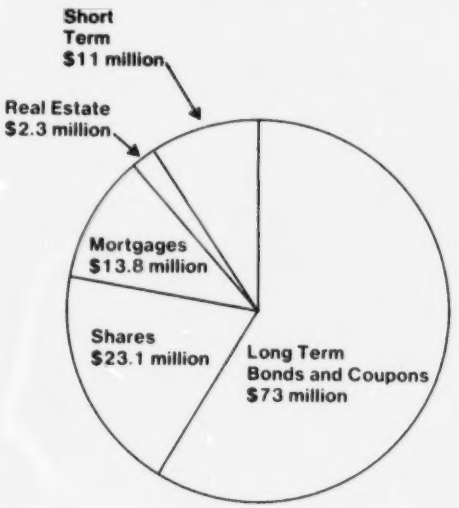
- Employer Members — (approximately 700)
  - some cities
  - towns and villages
  - rural municipalities
  - school divisions
  - community colleges
  - regional public libraries
  - various associations, e.g. SUMA, SARM, etc.
  - Municipal Hail Insurance Corporation
- Employee Members — (approximately 4,900)
  - city and town administrators
  - policemen and firefighters
  - rural municipal administrators
  - teacher aides
  - motor patrol operators
  - caretakers
  - clerical workers
- Comparative Statistics (Millions of Dollars)

	1984	1983	1982
Investment Holdings (Amortized Cost)	123.2	98.2	78.4
Contributions to Plan (Employee and Employer)	11.3	10.7	9.6
Superannuation Payments	2.28	1.89	1.48
Refunds, Transfers, and Estate Payments	.994	.906	.885

In view of the fact that the unit formula benefit plan, which made it compulsory for municipal employees to contribute to the fund, did not come into existence until July 1, 1973, the ratio of superannuated members to contributing members is very low. This being the case, the current pension costs are only a small percentage of current contributions.

Investment Portfolio as at December 31, 1984

(Total Value $123.2 Million)



Short Term $11 million
Real Estate $2.3 million
Mortgages $13.8 million
Shares $23.1 million
Long Term Bonds and Coupons $73 million

Solvency

The Municipal Employees' Superannuation Plan is fully funded by contributing municipal employees and their employers; however, the Provincial Government pays all administration expenses incurred in the administration of The Municipal Employees' Superannuation Act. An actuarial study completed in 1984 indicates that the fund is in excellent financial condition, having an accumulated surplus of approximately $9.3 million.

Annual Report

The Municipal Employees' Superannuation Commission prepares its own annual report each year which reflects all the details of the plan's activities, and includes audited financial statements.

Community Planning Services

The Community Planning Services Branch assists the province's 299 rural municipalities and 19 advisory district planning commissions with their community planning and development control concerns. The Planning and Development Act, 1983, the Subdivision Regulations and the Dedicated Lands Regulations provide the enabling legislation by which R.M. Councils can adopt planning and zoning bylaws and manage development proposals.

Additional branch administrative responsibilities include The Municipal Expropriation Act as it pertains to rural municipalities; representing Rural Development in the Environmental Assessment Review process; liaison with Urban Affairs, respecting annexations, inter-municipal, rural and lake management planning programs; Qu'Appelle Valley land use planning: and the Abandoned Rail line Disposition Program.

As statistics to the end of the 1984-85 fiscal year, there were:

- 19 Advisory district planning commissions
- 2 District development plans
- 23 District zoning bylaws
- 3 R.M. development plans
- 122 R.M. zoning bylaws
- 5 R.M. interim development control
- 50 R.M.s interested in planning bylaws
- 195 R.M. councils provided with planning assistance

During 1984-85 fiscal year, planning bylaw adoption progress was as follows:

- 2 New R.M. development plans
- 11 New zoning bylaws approved
- 112 Zoning bylaws amended
- 5 R.M.s with interim development control
- 50 R.M.s requested assistance in preparing planning bylaws

As joint responsibilities with other agencies, the following were completed:

- 18 Environmental Impact Assessment reviews
- 22 Municipal boundary alterations
- 22 Urban Affairs subdivision referrals

Current progress in the Abandoned Railway Right-of-Way Disposition Program is as follows:

- 35 local advisory committees are responsible for the management and disposition of 35 abandoned railway rights-of-way.
- 11 committees successfully concluded their disposition duties.

Subdivisions activity during 1984-85 was as follows:

- 1,267 subdivision proposals received
- 1,024 subdivision approvals issued
- 24 subdivisions refused
- 146 subdivision files closed
- 46 subdivision re-approvals
- 316 subdivision files active
- 8 public reserve status changes

Highlights of branch activity during 1984-85 were as follows:

- Significant satisfactory municipal response to the new Planning and Development Act, 1983.
- Successful progress in abandoned railway right-of-way disposition.
- Completion of several lake management programs, development plans and zoning bylaws
- Co-ordination of Qu'Appelle Valley transition program involving 20 rural municipalities.
- Resolution of several longstanding development concerns.
- Implementation of new municipal planning and zoning bylaws.

In summary, there continues to be significant rural municipal interest in development planning. R.M. requests for branch assistance in the appropriate management of development are frequent. Ongoing co-ordination and consultation through the planning process ensure municipal autonomy and successful decision-making at the local level.

The branch maintains two regional offices in Regina and Saskatoon. Branch staff includes six professional planners, four full-time planning technicians, one part-time technician, two full-time clerk typists and one part-time clerk typist.

Planning and Research

During the year under review, the Planning and Research Branch was responsible for designating and co-ordinating road system planning for rural municipalities, conducting research into rural issues, development and transportation, distribution of unconditional revenue sharing funds and provided research, technical and financial assistance to rural municipalities to reduce the social and economic loss due to municipal traffic accidents.

Road Planning

During the 1984-85 fiscal year, applications for roadway changes totalled 1 200 kilometres in 130 rural municipalities. These locations were examined and 375 kilometres of roadway were classified into various road assistance programs. The designated road system in 1984-85 consisted of 54 500 kilometres thereby committing the Government to funding approximately 1/3 of Saskatchewan's municipal road system. To facilitate road planning, traffic studies were carried out on 2 500 kilometres of road by our staff. Origin-destination and vehicle classification studies were carried out at several locations.

Summer staff conducted inventory in 74 rural municipalities to update our road inventory and planning maps.

The rural road inventory provides an essential information base of existing roads and standards, farm homes, industries, resort developments, etc. that is required in planning and assessing the roadway needs in each rural municipality. In addition, the road class information is one of the input factors in the calculation of the unconditional revenue sharing grant.

Under Branch supervision consulting engineers conducted traffic studies in 64 rural municipalities.

The traffic study data forms the basis for designating roadways eligible for provincial assistance, funding of grants and road design standards.

The traffic data is in regular demand by various government agencies and rural municipalities which rely on the data to establish their construction and maintenance priorities.

The Branch was responsible for setting up Timber Haul Road Maintenance agreements in eleven rural municipalities whereby the Department of Rural Development pays 100 percent of the maintenance cost on the designated haul routes up to a maximum of 3.73¢/cord/km. The maintenance agreements compensate rural municipalities for overweight hauling of timber.

Research

In the fiscal year 1984-85, the focus of the research division was directed at ensuring department programs reflected the changing needs of rural municipalities.

Major research responsibilities included:

- Review and development of rural programs.
- On-going research into rural revenue sharing to ensure equitable distribution of conditional and unconditional funding.
- Research into municipal financing.
- Monitoring new developments in rural local government that included reviewing any legislation having an impact on rural municipalities.
- Information for Task Force on Rural Development and Local Government Finance Commission regarding the unconditional grant and road rationalization.

Research studies undertaken during the year included:

- Annual mill rate survey.
- Road costs affected by changes to the CROW and rail line abandonment.
- Auto-Drafting Report.
- Provincial grants, mill rate equivalency and assessment comparisons.
- Developed formula for assistance rates (Main Farm Access percentages and theoretical mill rates on micro computer).
- Education comparisons of rural urban school taxes, mill rates and assessments.
- Rural Municipal Financing Report.
- Organized Hamlet Report.
- Effect on Unconditional Grant due to enhanced maintenance program and other grant options developed on micro computer.
- Analysis of surpluses in organized hamlets.
- Micro Computer Management Proposal.
- Micro computer program for conditional road grant allocations.
- Worked on SICCOA transportation sub-committee report.

Revenue Sharing

The Branch was responsible for reviewing and updating the input into the equalization grant formula to ensure an equitable distribution of funds. The Branch determined the distribution of $16,001,200 unconditional revenue sharing funds to rural municipalities for the 1984-85 fiscal year.

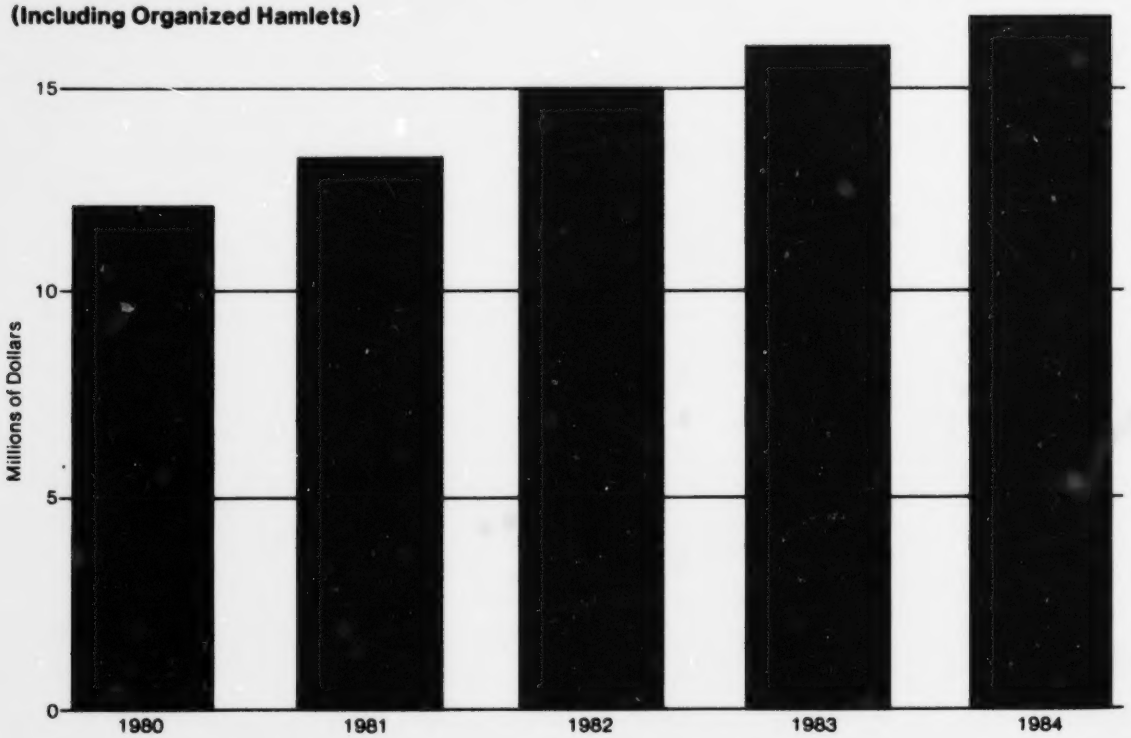
The Branch also determined the Main Farm Access construction assistance rate for each rural municipality. This rate forms the basis of provincial assistance for all our road programs.

The Branch was responsible for the distribution of organized hamlet grants. For the 1984-85 fiscal year $726,320 was allocated to 140 hamlets.

The grant consisted of a base amount and a per capita grant to assist small communities in providing services.

Unconditional Revenue Sharing Grants

(Including Organized Hamlets)



Traffic Safety

An expanded Traffic Safety Program implemented in 1982 has been well received by the municipalities. This program provides assistance to rural municipalities for traffic safety countermeasures which include signing, clearing of sight triangles, centreline striping and intersection improvements. During 1984-85, 78 rural municipalities participated in this program.

Through the "Traffic Accident Information System" this Branch, in conjunction with the district office staff, is able to monitor and analyze municipal road traffic accidents to identify and correct roadway deficiencies. Throughout the year, a number of recommendations were made to rural municipalities for improvements of potentially hazardous locations.

Year end accident information is forwarded to rural municipalities. This information enables rural municipalities to take corrective action and contribute to reducing the municipal accident rate and the economic loss. The economic loss due to property damage accidents alone was $10.3 million in 1984.

The Branch set up a traffic safety display at the Regina Agribition and the Farm Progress Show. The display promoted Traffic Safety on the Municipal Road System.

During the past two years, there has been a reduction in the number of accidents, fatalities and injuries on the municipal road system. These reductions can be partly attributed to the Traffic Safety Program.

Signing

The Branch is responsible for developing and monitoring sign standards and specifications to ensure that municipal signing conforms to the Canadian standards. New signs, signing techniques and materials are evaluated and adopted for use on the municipal road system.

Railway Crossing Signalization

This Branch co-ordinated the site inspections of eight municipal road-railway crossing locations to determine the need for automatic signal protection. The Canadian Transport Commission has approved seven locations for signalization and one was turned down during 1984-85.

Ferry Services

Fifteen cable ferries were in operation during the 1984-85 ferry season, ten on the South Saskatchewan River, four on the North Saskatchewan River and one on the Saskatchewan River.

Ferry service commenced on the South Saskatchewan River at the Lemsford Ferry crossing and Lancer Ferry crossing on April 10 and on the North Saskatchewan River at the Lloydminster Ferry crossing on April 14. Riverhurst Ferry operates across Lake Diefenbaker. It commenced service on April 16 and continued until December 3. The Cumberland House Ferry crossing, located on the Saskatchewan River, commenced service on April 16 and continued until October 31.

A ferry maintenance crew of four was employed during the year to carry out all necessary construction and maintenance programs.

The total cost of operations, maintenance and improvements ending March 31, 1985 was $1,436,868.55.

Bridge Services

The Bridge Services Branch administers a program under which financial and technical assistance is provided to rural municipalities for the construction and repair of municipal bridges within their jurisdiction.

Technical assistance consists of carrying out inspections, engineering designs, determining load carrying capacities and providing recommendations on bridge problems.

Financial assistance is provided at rates varying from 20% to 80% for bridges from 6 m to 30 m in length. For bridges greater than 30 m in length, financial assistance at the rate of 100% is provided on bridge construction and repair costs.

During the 1984-85 fiscal year, project expenditures totalled 3.4 million. Financial assistance was provided to 80 rural municipalities on 144 projects. Approximately 83% of the total bridge expenditures were made for bridge projects on designated roads, such as primary grid, grid and main farm access roads. These projects were given priority because of the greater traffic volumes served and also to co-ordinate the bridge construction with the new road construction.

The replacement of larger substandard bridges was again given considerable emphasis as approximately 54% of the total expenditures was made on larger bridge projects with the Department paying 100% of the costs for these projects.

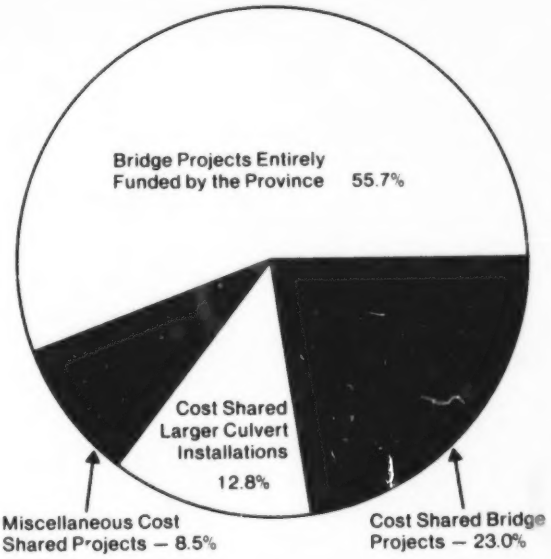
Under the direction of the Bridge Services Branch, construction and repair for the majority of municipal bridges was carried out by the bridge construction crews of Saskatchewan Highways. Culvert installations were carried out either with municipal equipment or by road construction contractors under the supervision of district staff.

Because of the present economic advantage, the use of corrugated steel culverts in lieu of bridges continued to be a popular choice, particularly in view of the availability of helical corrugated steel culverts.

During the 1984-85 fiscal year, approximately 125 bridge inspections were carried out by the branch, with corresponding reports and recommendations being forwarded to the municipalities. In addition to the design of new drainage structures, work also included making arrangements to have new bridges constructed.

The bridge projects receiving financial assistance during the 1984-85 fiscal year are summarized as follows:

Bridge Program Expenditures 1984-85



Bridge Projects Entirely Funded by the Province 55.7%
Cost Shared Larger Culvert Installations 12.8%
Miscellaneous Cost Shared Projects — 8.5%
Cost Shared Bridge Projects — 23.0%

Summary of Bridge Program

Construction — Larger Bridges (100% Funded)

Rural Municipality	Location	Description
Weyburn No. 67	On an industrial access road, south of Weyburn over the Souris River.	3 span bridge, 36 m long, precast concrete superstructure.
Gravelbourg No. 104	On a primary grid road, northeast of Gravelbourg over the Wood River.	5 span bridge, 75 m long, precast concrete superstructure.
North Qu'Appelle No. 187	On a resort road, south of Lebret over the Qu'Appelle River.	3 span bridge, 36 m long, precast concrete superstructure.
Pleasant Valley No. 288	On a main farm access road, west of Rosetown over Eagle Creek.	3 span bridge, 36 m long, precast concrete superstructure.
Hudson Bay No. 394	On a grid road, west of Clemenceau over the Etomami River.	3 span bridge, 48 m long, precast concrete superstructure.
Manitou Lake No. 442 and Wilton No. 472	On a main farm access road, north of Marshall over the Battle River.	5 span bridge, 63 m long, precast concrete superstructure.
Meadow Lake No. 588	On a main farm access road, northwest of Meadow Lake.	3 culverts, each 4 300 mm in diameter, with fish baffles.

Total = 7 Larger Bridges

Construction — Standard Pile Bridges

Spans and Total Length	No. of Projects
1 span, 6 metres	2
1 span, 12 metres	4
1 span, 18 metres	1
2 spans, 18 metres	1
3 spans, 21 metres	1
2 spans, 24 metres	2
3 spans, 24 metres	2
3 spans, 27 metres	1
Total — Standard Pile Bridges =	**14**

Construction — Larger Corrugated Steel Culverts

Culvert Diameter	No. of Projects
2000 mm	1
2200 mm	4
2400 mm	6
2700 mm	8
3000 mm	5
3990 mm	2
4300 mm	2
4610 mm	1
Total — Large Culverts =	**29**

Bridge Maintenance Projects

Total Length	No. of Projects
6 metres	9
9 metres	1
12 metres	11
15 metres	1
18 metres	5
24 metres	5
36 metres	2
46 metres	1
55 metres	1
61 metres	1
70 metres	1
Large diameter Culvert	1
Total Repair Projects =	**39**

Miscellaneous Bridge Projects

Description	No. of Projects
Small Culverts in lieu of bridges	17
Low Level Crossings	6
Erosion Protection	5
Pave Decks	2
Bridge Raising	1
Channel Improvements	1
Guardrail Installation	1
Road diversion in lieu of bridge	1
Total Miscellaneous Projects =	**34**

Financial assistance was also provided on the remaining costs for 21 projects previously undertaken.

Road Services

The Road Services Branch consists of a Director and three Regional Engineers located in Regina, with six district offices located throughout the province. The Regional Engineers supervise the south region consisting of the Swift Current and Weyburn districts, the north-east region made up of the Yorkton and Prince Albert districts, with the Saskatoon and North Battleford districts making up the north-west region.

The Road Services Branch of the Department of Rural Development provides technical and financial assistance to municipalities for the construction, oil surfacing and maintenance of designated roads according to program eligibility.

The designated road programs administered by the branch include the following:

Grid Roads — this program, consisting of an all-weather road system of inter-connecting municipal roads, initially began in 1956 with 19 000 km and later expanded to 26 000 km. Although construction was completed by April, 1976, maintenance assistance is provided.

Primary Grid Roads — this program began officially in 1977 and consists of 8 600 km of the more important grid and main farm access roads. Construction and oil surfacing assistance are available for all primary grid roads.

Main Farm Access Roads — this program of 30 000 km began in 1967 as a secondary grid system to provide all-weather access roads to as many farm sites as possible.

Regional Park Roads — designated roads to regional parks are eligible for construction and oil surfacing assistance.

Oil and Industrial Access Roads — this program provides assistance for those roads carrying a large amount of traffic, associated with the oil or other industries.

Resort Roads — this program provides assistance for roads that carry a substantial amount of tourist traffic, particularly during the summer months.

Indian Reserve Access Roads — this program began in 1979 and provides assistance for construction of access roads to Indian Reserves.

Indian Reserve Roads — this program involves designated roads on Indian Reserves. Construction costs are shared between the federal and provincial governments.

Engineering services are available through six district offices located in North Battleford, Saskatoon, Prince Albert, Yorkton, Weyburn and Swift Current.

Design and Engineering

The district engineering staff of the Department carried out alignment surveys, drainage, special and related construction surveys in 249 rural municipalities and nine urban municipalities. Complete road designs and construction engineering were provided on 34.2 km in 17 rural municipalities.

A total of 1 285.2 km of road designs were submitted by consulting engineers to district offices for checking and approval by our staff.

Construction

During this season, 192 rural municipalities constructed a total of 1 035.3 equivalent km of designated roads. This total is made up of 351.6 km of primary grid, 634.5 km of main farm access, 2.2 km of regional park, 8.4 km of resort, 32.3 km of industrial access and 6.3 km of Indian Reserve access roads.

The excavation price of projects tendered in 1984 varied from a low of 62¢/m^3 in the Swift Current and Weyburn districts to a high of $1.30/$m^3$ in the Prince Albert district, with a provincial average of 82.6¢/m^3. The average cost of construction on roads built to a main farm access standard was $15,600/km and the average cost of construction for primary grid roads was $19,100/km.

The average cost of construction contracts tendered in 1984 amounted to approximately $70,000 per contract.

Total construction during 1984 in all programs dropped to 1 266 km from 1 523 km the previous year. Part of the reason for this drop in construction is due to the fact that some rural municipalities have completed their main farm access road network and the early snow in mid October.

The Yorkton district constructed the largest number of km of road during 1984 for a total of 200.8 km followed by the North Battleford district with 185.5 km.

Reconstruction

During the 1984 season, 74 R.M.s and 2 Indian Reserves reconstructed the equivalent of 230.3 km of the designated road system. This reconstruction is made up of 203.4 km of grid, 21.7 km of main farm access and 5.2 km of industrial access road.

Oil Surfacing

67.9 km of oil surfacing were completed under the primary grid and regional park programs. 15 R.M.s participated in the two programs.

The cost of oil surfacing in 1984 averaged $29,300.00/km.

The Saskatoon district surfaced the largest number of km of road during 1984, made up of 37.0 km of new surfacing and 7.0 km of asphalt overlay in eight rural municipalities.

The supervision on their projects was carried out by the department's technical staff from the Saskatoon district office.

The Rural Municipality of Sarnia No. 221 surfaced 6.7 km of primary grid road at a total cost of $200,800.00 using a salt stabilized base and a 40 mm thick asphalt mat.

Oil Surfacing Maintenance

In 1984, 89 rural municipalities and 50 urban municipalities were eligible to receive oil surfacing maintenance assistance on roads surfaced under the Primary Grid or Regional Park programs. 50% assistance was paid to rural and urban municipalities on a total expenditure of **$1,966,278** for oil surfacing maintenance.

Regular Maintenance

In 1984, 486 km of road were eligible to receive maintenance assistance of $180/km, 2 276 km were eligible to receive $130/km and 21,508 km were eligible to receive $90/km for maintenance on roads, constructed roads in the grid, primary grid, regional park, resort and industrial access programs. In addition, 22 414 km of main farm access road were eligible to receive $60/km for maintenance assistance.

All 299 R.M.s were eligible for assistance under the above maintenance programs. As well, 253 cities, towns and villages were eligible for maintenance assistance on 261 km, under the same road programs.

Roads on Indian Reserves

The Department assisted on the alignment and design of 13.1 km of grid road on one Indian Reserve in 1984. Regular maintenance assistance is available at $60.00/km on 327.6 km and 46 km were eligible for extra assistance of $70.00/km in 42 Indian Reserves.

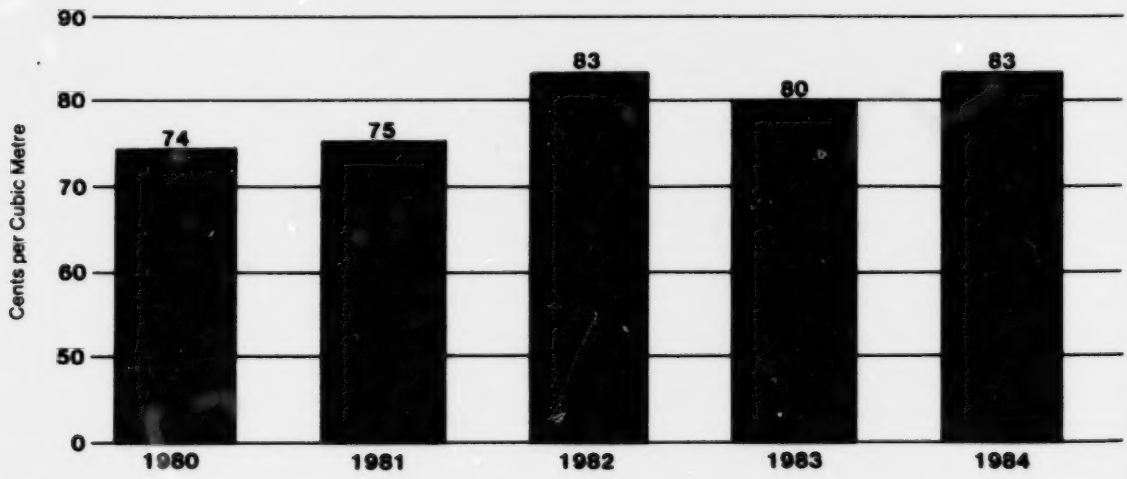
Average Annual Cost of Excavation (Tendered Contracts)



Rural Development 1984 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Grid	Grid construction program discontinued as of April 1, 1976.	N/A	Maximum of $90.00 per km where traffic volume is 150 v p d or less. A maximum of $130 per km where traffic volume exceeds 150 v p d to a maximum of 250 v p d. A maximum of $180 per km where traffic volume exceeds 250 v p d. Maintenance grants paid on the basis of field reports.	Basic main farm access percentage. Extra 15% on costs over $9,000 per km. Grant earned forms part of construction allocation for designated roads.	N/A	
Main Farm Access	Basic main farm access percentage. Based on equalization grant formulae. Varies from 40% to 60%.	Normal main farm access percentage. (a) Extra 15% on costs over $3,000 per km. (b) Extra 10% on costs over $6,000 per km.	Maximum of $60.00 per km. Maintenance grants paid on basis of field reports. Accounts not required.	Basic main farm access percentage. Extra 15% on costs over $9,000 per km. Grant earned forms part of construction allocation for designated roads.	N/A	Basic percentage may vary from year to year.
Primary Grid	Varies from 50% to 70%. Main farm access percentage for individual municipality, plus 10% for construction to full primary grid standards. Main farm access percentage for individual municipality for construction to partial primary grid standards.	Extra 15% on costs over $9,000 per km for construction to full primary grid standards.	For subgrade and right-of-way maintenance, it is the same as 'Grid'. 50% assistance for oil surface maintenance.	(Same as under 'Construction' and 'Extra Assistance')	(Same as under 'Construction' and 'Extra Assistance')	
Roads on Indian Reserves	Rural Development pays 100% of initial construction and gravel. Province reimbursed 80%. Applies to main farm access, primary grid and resort.	N/A	Maximum of $60.00 per km divided between surfaced maintenance and right-of-way maintenance. Maximum of $70 per km on designated locations where traffic volume exceeds 150 v p d. Maintenance grants paid on basis of field reports. Accounts not required.	(Same as under 'Construction')	Primary grid only. (Same as R.M.)	Grant earned does not form part of construction allocation for designated roads.
Indian Reserve Access	Rural Development pays 80% of initial construction and gravel.	N/A	(Same as M.F.A.	N/A	N/A	
Industrial Access (Includes Oil Access)	Basic main farm access percentage.	(a) Plus 20%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 80%.	(Same as Grid)	Basic main farm access percentage, plus 20%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 80%.	N/A	

Rural Development 1984 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Resort	Basic main farm access percentage	(a) Plus 15%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 90%.	(Same as Grid)	Basic main farm access percentage plus 15%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 90%.	N/A	
Regional Park Access	Basic main farm access percentage	(a) Plus 30%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 90%.	(Same as Grid for sub-grade and right-of-way). 50% assistance for the maintenance of oil surface.	Basic main farm access percentage plus 30%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 90%.	(Same as under 'Construction' and 'Extra Assistance').	
Towns and Villages	70% assistance for all designated roads.	N/A	(Same as Grid) M.F.A. Roads receive the same assistance as in rural municipalities.	(Same as under 'Construction').	Primary grid and regional park access only. (Same as under 'Construction'). Recommend towns and villages co-operate with R.M. for oil surfacing maintenance.	
Bridges	(a) Bridges over 30.5 metres in length: 100%. (b) Bridges 6.1 metres to 30.5 metres in length: Standard bridge assistance rate from 20% to 80% determined from formula based on number of bridge units and assessment (e.g.) 20% = assess. of $384,000/unit or greater. For bridges on designated roads, assistance at the higher of standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	(a) Bridges over 30.5 metres in length: 100%. (b) Bridges 6.1 metres to 30.5 metres in length: R.M. pays first $200.00. Assistance on balance of costs at standard bridge assistance rate. For bridges on designated roads, assistance at the higher of the standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	N/A	Grant earned does not form part of construction allocation for designated roads. Bridges 24.4 metres to 30.5 metres are eligible for extra construction assistance.

Municipal Management and Finance

The main function of the Branch is to provide consultative and review services to elected and appointed rural municipal officials in all aspects of municipal law, administration and accounting.

These services are provided by mail, telephone and during periodic visits to municipal offices, during which time municipal records are inspected. Specific problems and alleged improper conduct of municipal operations are investigated. A report on each visit is subsequently prepared for submission to the Minister and to the Reeve of the rural municipality. The report indicates any deficiencies and recommends remedial procedures to improve municipal administration.

During the year, detailed reviews of the records maintained by 27 municipal administrators applying for a Class "A" or Superior "A" Certificate of Qualification were conducted for the Board of Examiners. Members of the branch also conducted 70 routine reviews of municipal records and made 130 advisory calls at municipal offices. 50 special interviews were conducted with municipal officials and 18 council meetings were attended. Staff members expended 43 days attending conventions of the S.A.R.M. and the R.M.A.A.

Grants totalling $22,435 to municipalities for 20 trainees enrolled in The Municipal On-The-Job Training Program were processed as were the municipal bylaws and tax cancellations submitted for Ministerial Approval. Fidelity bonds for all rural municipal treasurers were monitored. The Supervisor of Boundaries processed Orders for six Organized Hamlets.

Where rural municipalities are unable to obtain the services of qualified administrators, the branch reviews each application and makes recommendations concerning the issue of permits to those rural municipalities employing unqualified persons as administrators.

The Director of the branch as departmental legislation officer prepared drafting instructions for amendment of legislation assigned to the Minister.

Annual financial statements, submitted by municipal auditors, and other financial reports for all 299 rural municipalities are monitored to evaluate financial strength, identify statutory and administrative deficiencies and determine where assistance is required to ensure adequate financing of municipal programs. Information obtained from these sources is compiled for report to Statistics Canada.

The following statistical schedules have been prepared from the information contained in the 1983 financial statements of rural municipalities.

Balance Sheet of the Revenue Funds (In Dollars) Rural Municipalities of Saskatchewan

Assets

	1983	1982	1978
Cash	32,602,287	28,875,848	19,529,975

Reserves	8,437,174	7,128,759	4,459,066
Net Surplus	41,979,709	39,533,945	30,609,459
Totals	**72,739,686**	**68,085,343**	**49,570,509**

Assets and Liabilities

The liquid financial position, which indicates the ability to meet current financial obligations of the revenue fund, was strengthened during the year. 215 rural municipalities had an operating surplus for the year and the operation of 84 rural municipalities resulted in a deficit. Reserves and surpluses continue to be maintained at an adequate level.

Saskatchewan Rural Development appreciates the continued co-operation and assistance received from local authorities, including the appointed municipal administrators, in dealing with municipal problems and supplying information for this segment of the annual report.
